

Service

BLOWERS SERVICE

Product description

Authorised service centre for DA radial air blowers manufactured by HCP

HCP provides a complete package of servicing and design. Under signed contracts for the supply of blowers, the company provides services relating to the installation of blowers within a facility. In addition, the customer receives fully warranted and post-warranty service provided by highly qualified and experienced service teams.

For the long-term operation of blowers, HCP provides a wide range of additional services.

Customers appreciating the value of HCP service frequently use the following services:

- Diagnostic check-ups,
- Repairs and overhauls,
- Back-fitting and modernisation,
- Expert reports and technical advice in facilities.
